

UNV OV Offer for Lebanon

The OV service can further support UNV and the UN country team in Lebanon by providing flexible, free of charge Online Volunteer capacity to support its rapid crisis response. Hundreds of Online Volunteers have supported the World Health Organization (WHO), UN Refugee Agency (UNHCR), UN Development Programme (UNDP) and other first responders across the UN system by contributing to their COVID-19 preparedness, response and long-term recovery efforts. This document was prepared with the kind support of Online Volunteer Anderson Ezie.
