ICT Analyst

We are looking for Information and Communications Technologies Analyst, Common Services

Background

UNDP is committed to achieving workforce diversity in terms of gender, nationality and culture. Individuals from minority groups, indigenous groups and persons with disabilities are equally encouraged to apply. All applications will be treated with the strictest confidence.

UNDP does not tolerate sexual exploitation and abuse, any kind of harassment, including sexual harassment, and discrimination. All selected candidates will, therefore, undergo rigorous reference and background checks.

The United Nations Campus in Bonn is home to over 20 UN organizations, agencies, units and convention secretariats, in their entirety referred to as UN Bonn. The UN organizations in Bonn currently occupy two distinct locations and several buildings. Within the next couple of years more buildings will be added and will significantly increase space and capacities on the main campus.

The Common Services Unit (CSU) at UN Bonn is responsible for the joint management of the premises space, central ICT infrastructures, and central services such as safety and security, mail logistics, system-wide surveys and host country liaison also dedicated conference facilities are provided to the organizations on a common basis. CSU is hosted organizationally and administratively under the framework of the United Nations Volunteers (UNV) programme while being funded by all UN agencies in Bonn.

Reporting to the Team Leader Common Services Unit, the ICT Analyst manages and co-ordinates the technical issues emerging from CSU engagement in building management (including ICT, security systems and conference facilities management), supports the Team Leader, CSU in the technical planning and coordination of major facility renovation and modernization projects and other special projects, coordinates the CSU ICT system provisions for agencies on the campus, and acts as the focal point on CSU side for the campus extension process.
The ICT Analyst closely engages and collaborates with the team leads of all core CSU service areas and coordinates the facilities/logistics and the conference and ICT team.

**Duties and Responsibilities**

**Planning and coordination of ICT system provision and connectivity**

- Plan and coordinate the provision of common ICT and telecommunication services and systems, including the hosting of the joint UN Bonn Network, wired and wireless services, hosting of digital conference network for UN Bonn, digital signage and ICT support for common security infrastructure;
- Maintain passive infrastructure at both UN locations;
- Provide technical support and ICT related inputs to special projects, led by German Government partners, and engage in respective meetings;
- Coordinate ICT and campus conference facility related upgrades and modernization;
- Engage with internal and external ICT service providers and ensure timely and effective management of ICT and voice contracts with third party providers;
- Liaise with respective UN Bonn ICT manager and focal points to ensure UN Bonn coordination and information sharing;
- Assist the Team Leader in the optimization of common ICT services and systems, and develop proposals;
- Manage ICT hardware requirements for CSU staff;
- Provide technical specifications, terms of reference, contracts, and agreements for outsourced building, facility, conference management and ICT services;
- Coordinate and appraise the overall performance of third-party providers to ensure timely delivery of tasks in line with established procedures;
- Participate in other technical coordination meetings and technical inter-agency panels, upon request of the Team Leader.

**Support the Team Leader on issues related to UN campus renovation, modernization and extension projects**

- Provide technical inputs to specific UN Campus projects led by German Government partners related to individual buildings, IT and technical infrastructure;
- Coordinate, as requested by the team leader, technical inputs from
various CSU areas (facilities, conference, IT, security) into campus modernization, renovation, and extension related projects and function as technical focal point for UN campus extension vis-a-vis the German partners and involved UN agencies, including coordination, and provision of technical inputs and engagement in respective meetings;
- Support, as needed, UN Bonn wide technical coordination and information sharing;
- Develop, plan, and coordinate related special projects on CS side, as applicable;
- Prepare internal and external reports and other correspondence.
