Online Volunteers

Online Volunteers are an additional resource to support your emergency response. They come without any cost to the requesting UN entity. Request Online Volunteers through UNV's [Unified Volunteering Platform](https://app.unv.org/calculator).

For example, Online Volunteers supported the UNV country offices in Nepal, Lebanon, Afghanistan and during other emergencies through translation, data collection, identifying, documenting, mapping of volunteer and community support initiatives, analyses, and reporting.

The UNDP Bureau for Policy and Programme Support in New York also utilized Online Volunteering for data analysis and research to contribute to the UNDP-UN Women COVID-19 Global Gender Response Tracker, to monitor governments’ responses taken to tackle the pandemic and to provide guidance for policymakers and evidence for advocates to ensure a gender-sensitive COVID-19 policy response.
