UNV Online Volunteering offer for the UN response in Pakistan

The floods in Pakistan have caused extensive loss of life and devastation. Approximately 33 million inhabitants are reported to have been affected, while preliminary estimates indicate that around 7.6 million people may be temporarily displaced. Efforts to verify the extent of displacement are

ongoing and the situation is anticipated to worsen. The Online Volunteering solution of the United Nations Volunteers (UNV) programme provides partners with flexible and speedy Online Volunteer capacity from around the world to support rapid emergency response to the crises in Pakistan. Requesting and engaging with Online Volunteers is facilitated through the AI-powered and cloud-based Unified Volunteering Platform (UVP).
