Launching the new UN Partner Toolkit for hosting UN Volunteers

We are pleased to launch the new UN Partner Toolkit for hosting UN Volunteers.

UN Volunteers bring motivation, commitment and a diversity of perspectives, experiences and cultures that enrich the UN system. This toolkit is designed to guide you through the UN Volunteer journey - the various stages you and the volunteer will experience together during the assignment, from the beginning, until the end.

So, what can you find in this toolkit?

The toolkit will become your central reference point, where you can get the relevant information you need on-demand, at any time and from anywhere: policy, processes, checklists, templates, tools, guidance and resources.

Everything you need to know about the UN Volunteer journey is covered in our new interactive five-part online guidelines:

PART 1: Engage the best-suited UN Volunteer by using one of six categories of UN Volunteers to meet your business needs. Here you can also learn more about the support UNV provides you and financial arrangements to recruit a UN Volunteer.

PART 2: Write the description of the assignment with our ready-to-use templates and guidance, interview qualified candidates within two weeks and use our tools to support such as recruitment and pre-arrival checklist to ensure a positive experience.
PART 3: Optimize the onboarding of your UN Volunteers by following our step-by-step checklist for the first 90 days to successfully onboard and engage your UN Volunteers.

PART 4: Effectively manage UN Volunteers by leveraging best practices and get support and advice on how to manage your UN Volunteers. Help them reach their full potential by enabling learning and development opportunities, safeguarding their mental health and addressing workplace concerns.

PART 5: Ensure business continuity by simply extending UN Volunteers contracts, reassigning a UN Volunteer to meet your evolving needs or prepare for their end of the assignment.

UNV works with partners to integrate UN Volunteers into development programming to contribute to peace, development and humanitarian delivery worldwide. You can learn more about the added value of UNV, UN Volunteers and volunteerism to the 2030 Agenda for Sustainable Development, and, ultimately, to your delivery.

If you have additional questions, please feel free to contact us.
