**Notes:**

1) As of January 2019, UNV is introducing cost-recovery for its Online Volunteering service, as per above pricing. This will help ensure that UN partners can continue benefitting from the high quality of the service and its state-of-the-art IT platform. Based on the number of opportunities published, a yearly fee is charged to cover IT innovation and comprehensive services related to account management, expert advice on opportunity design, as well as access to volunteer and opportunity management tools.

2) The total net price per year is charged annually.

3) The net price per year can be charged according to the budget preferences of UN entities at central headquarters, regional or country/project level.

4) UNV offers an incentive for medium to high uptake of online volunteering opportunities, as the administrative costs are lower.
