

Engaging with
UNV

**VOLUNTEER
INVOLVING
ORGANIZATIONS**

Technology has changed the way we live. Technology has also changed the way we volunteer. Today, the Internet allows organizations and volunteers to tackle the world's most important issues together, from right where they are.

Online volunteering allows people to contribute to solving global challenges anywhere in the world, using the technology at their fingertips – smartphones, tablets or computers. Online volunteering is fast, easy – and most of all, effective.

Since the year 2000, the UNV Online Volunteering service has helped over 3,000 United Nations entities, civil society organizations and public institutions find 80,000 great volunteers.

UNV, as the UN mandated **advocate for global volunteerism**, is looking for partners that recognize the transformative power of online volunteering. Do you wish to proactively engage citizens in making a difference for sustainable development worldwide? Are you looking for technology to manage your volunteer programmes?

Volunteer Involving Organizations can adopt our bespoke volunteering management platform to monitor their own volunteering opportunities, organizations and volunteers.
