Descripción de la asignación de voluntarios NU

AFGR001515—Information Management Assistant (IMA)

El programa de Voluntarios de las Naciones Unidas (VNU) es la organización de la ONU que contribuye a la paz y al desarrollo en todo el mundo por medio del voluntariado. El voluntariado es una forma poderosa de involucrar a los ciudadanos para hacer frente a los desafíos en materia de desarrollo, y capaz de transformar el ritmo y la naturaleza del mismo. El voluntariado beneficia tanto al conjunto de la sociedad como a los voluntarios, fortaleciendo la confianza, la solidaridad y la reciprocidad entre las personas y creando oportunidades de participación apropiadas. Para impulsar la paz y el desarrollo, el programa VNU promueve el reconocimiento de la contribución de los voluntarios, trabaja con sus asociados para integrar el voluntariado en los programas de desarrollo y moviliza en todo el mundo a un número cada vez mayor y más diverso de voluntarios, incluidos Voluntarios de las Naciones Unidas. El programa VNU entiende el voluntariado como universal e incluyente, y reconoce el voluntariado en toda su diversidad, así como los valores que lo sustentan: libre albedrío, entrega, compromiso y solidaridad. En la mayoría de las culturas, el voluntariado está profundamente arraigado en antiguas tradiciones de cooperación y apoyo fuertemente establecidas entre las comunidades. En este contexto los Voluntarios de las Naciones Unidas participan en varias formas de voluntariado y juegan un papel esencial en el desarrollo y la paz junto a sus colegas, agencias receptoras y comunidades locales. En todas las asignaciones, los Voluntarios de las Naciones Unidas promueven el voluntariado por medio de su acción y conducta. La participación en actividades voluntarias puede enriquecer efectiva y positivamente su entendimiento de la realidad local y social, así como también crear un puente entre los voluntarios y la gente de la comunidad receptora. Esto hará que su tiempo como Voluntario de la ONU sea aún más satisfactorio y productivo.

SP Contexto Organizativo & descripción del proyecto.

The fundamental mission of UNICEF is to promote the rights of every child, everywhere, in everything the organization does — in programmes, in advocacy and in operations. The equity strategy, emphasizing the most disadvantaged and excluded children and families, translates this commitment to children’s rights into action. For UNICEF, equity means that all children have an opportunity to survive, develop and reach their full potential, without discrimination, bias or favouritism. To the degree that any child has an unequal chance in life — in its social, political, economic, civic and cultural dimensions — her or his rights are violated. There is growing evidence that investing in the health, nutrition, education and protection of a society’s most disadvantaged citizens — addressing inequity — not only will give all children the opportunity to fulfil their potential but also will lead to sustained growth and stability of countries. This is why the focus on equity is so vital. It accelerates progress towards realizing the human rights of all children, which is the universal mandate of UNICEF, as outlined by the Convention on the Rights of the Child, while also supporting the equitable development of nations. To fulfil the mission, strengthening system in particular reporting and monitoring is essential. Thus, collection and use of quality nutrition information is one of the key objectives. This facilitates evidence-based decision making and strengthens the capacity of government and partners to plan, implement, monitor and coordinate nutrition programs. In addition, availability of timely information reinforces the capacity of the nutrition sector to utilize the evidence to advocate, support and formulate new policies and strategies to fill gaps.
