The United Nations Volunteers (UNV) programme is the UN organization that promotes volunteerism to support peace and development worldwide. Volunteerism can transform the pace and nature of development and it benefits both society at large and the individual volunteer. UNV contributes to peace and development by advocating for volunteerism globally, encouraging partners to integrate volunteerism into development programming, and mobilizing volunteers. In most cultures, volunteerism is deeply embedded in long-established, ancient traditions of sharing and support within the communities. In this context, UN Volunteers take part in various forms of volunteerism and play a role in development and peace together with co-workers, host agencies, and local communities. In all assignments, UN Volunteers promote volunteerism through their action and conduct. Engaging in volunteer activity can effectively and positively enrich their understanding of local and social realities, as well as create a bridge between themselves and the people in their host community. This will make the time they spend as UN Volunteers even more rewarding and productive.

Living Conditions

The assignment will be in Brasilia, the nation's capital. Brasilia is a family duty station, Hardship A. Security level in Brazil is moderate (3). UNDSS Brazil advises to exercise a high degree of caution in Brazil due to high levels of serious and violent crime, particularly in major cities. Violent crime as muggings, armed robbery, kidnappings, and sexual assault, is very high. Avoid shanty towns (favelas) in the big cities, and if you are attacked or robbed, do not resist. Demonstrations can occur at any time and may turn violent with little or no warning. All United Nations personnel must scrupulously comply with UNDSS procedures and recommendations during their assignment in Brazil. For missions in rural areas or indigenous reservations, special procedures may apply; UN personnel should consult with the local DSS office in advance.

Brasilia, was founded in 1960. It is considered as one of the major examples of the modernistic movement in architecture and urban planning in the 20th century and was added to the UNESCO list of World Heritage Sites. The average temperature is 22°C, rising to over 30°C during the hottest period. The hottest month in Brasilia is September and the coolest month is July. Planned for only 500,000 inhabitants, Brasilia has seen its population grow much more than expected. Several satellite towns have been created over the years to house the extra inhabitants. Brasilia's total population (including the satellite cities) is now over 2,000,000 inhabitants. Outdoor
recreational activities include basketball, golf, Hash House Harriers, horse-back riding, picnicking, riding, sailing, soccer, sunbathing, swimming, tennis and volleyball. Inexpensive lessons in many sports are available at the clubs to members and non-members alike. Brasília is a pleasant and safe city, with live cultural ambience. There are two well marked seasons, with a rainy season from October to April and a dry season from May to September.
