Descripción de la asignación de voluntarios NU

CODR000666--Communication Specialist

El programa de Voluntarios de las Naciones Unidas (VNU) es la organización de la ONU que contribuye a la paz y al desarrollo en todo el mundo por medio del voluntariado. El voluntariado es una forma poderosa de involucrar a los ciudadanos para hacer frente a los desafíos en materia de desarrollo, y capaz de transformar el ritmo y la naturaleza del mismo. El voluntariado beneficia tanto al conjunto de la sociedad como a los voluntarios, fortaleciendo la confianza, la solidaridad y la reciprocidad entre las personas y creando oportunidades de participación apropiadas. Para impulsar la paz y el desarrollo, el programa VNU promueve el reconocimiento de la contribución de los voluntarios, trabaja con sus asociados para integrar el voluntariado en los programas de desarrollo y moviliza en todo el mundo a un número cada vez mayor y más diverso de voluntarios, incluidos Voluntarios de las Naciones Unidas. El programa VNU entiende el voluntariado como universal e incluyente, y reconoce el voluntariado en toda su diversidad, así como los valores que lo sustentan: libre albedrío, entrega, compromiso y solidaridad. En la mayoría de las culturas, el voluntariado está profundamente arraigado en antiguas tradiciones de cooperación y apoyo fuertemente establecidas entre las comunidades. En este contexto los Voluntarios de las Naciones Unidas participan en varias formas de voluntariado y juegan un papel esencial en el desarrollo y la paz junto a sus colegas, agencias receptoras y comunidades locales. En todas las asignaciones, los Voluntarios de las Naciones Unidas promueven el voluntariado por medio de su acción y conducta. La participación en actividades voluntarias puede enriquecer efectiva y positivamente su entendimiento de la realidad local y social, así como también crear un puente entre los voluntarios y la gente de la comunidad receptora. Esto hará que su tiempo como Voluntario de la ONU sea aún más satisfactorio y productivo.

DRC is larger than Western Europe, and therefore is very diverse. Living conditions - including the cost of living and the availability of food, the level of accommodation and utilities - vary widely among locations.
In most places, the basic infrastructure are available and private accommodation can be rented (power cuts and water can be frequent). The United Nations Volunteers often share their homes. A certain level of medical service is provided in all places of employment on the basis of 24/7. The United Nations Volunteers must be aware that they are exposed to a number of tropical diseases, including malaria. Telephone SIM and recharge cards are widely available. However, there are places of employment in the DRC where mobile networks are not available. In large cities (e.g. Kinshasa, Lubumbashi, Goma, Bukavu, Kisangani), the United Nations Volunteers are encouraged to open bank accounts in U.S. dollars, while in other places, banks may be absent and the VLA payments will be paid in cash.

**SP Contexto Organizativo & descripción del proyecto.**

In continuing efforts for realistic and durable impact of the first phase of New Deal project funded by KOICA from the end of 2017 for 2 years, the new project titled “Sustaing Peace through New Deal Implementation and Humanitarian-Development-Peace Nexus in DRC (hereinafter referred to as Project New Deal 2)” has been approved by the same donor with aim to reinforce the national and provincial capacities to elaborate and implement a plan capitalizing the tools provided from the New Deal such as Compact. This strategic orientation was one of recommendations taken away from the Fragile-to-fragile / South-South peer learning workshop conducted in Sierra Leone in October 2018 between New Deal actors of Sierra Leone and DRC in order for New Deal to go not just for planning itself, but also realisation. Amongst 26 provinces, UNDP with New Deal is currently supporting the elaboration of provincial development plans which will be continued in the second phase of the project as this process provides development actors the basic orientation at the provincial level and the most of the provinces have not yet even initiated the process of elaboration of the development plan. This will help orient towards resilience from fragility in the specific context of fragile and conflict-affected settings rather than focusing on general development agendas.

On the other hand, for a realistic transition out of fragile situation, one of keys is a coordination among the actors particularly between national and international actors dedicated for the shared vision on long-term development whilst reducing humanitarian interventions. In this regard, a particular coordination between humanitarian aid, development and peace in the context of DRC will play a key role for better impact as the need has been well recognised (The United Nations World Humanitarian Summit held in Istanbul, Turkey, on May 23 and 24, 2016). As abovementioned, DRC’s H-D-P Nexus Core team composed of UNDP, OCHA, UNICEF, the World Bank, the office of DSRSG and Stabilisation Support Unit (SSU) of MONUSCO, under the coordination of Deputy Special Representative of the Secretary General (DSRSG), Resident Coordinator (RC), Humanitarian Coordinator (HC) in the DRC, has been put in place for the operationalisation of the Nexus in the DRC. At this stage, a strategic note for operationalisation of the Nexus with some of concrete proposals called Nexus Pilots has been elaborated and this project is...
aligned with the first proposals of the Nexus Pilots targeting the 3 provinces. The long-term interventions to address the underlying causes of conflict is key and this will facilitate linking the existing humanitarian aid and development where the latter will be supported by this project with UNDP’s interventions with a focus on strengthening institutions and institutionalisation of the Nexus with New Deal tools. Support of operation for the initiative of Nexus pilots such as joint analysis of the situation, a joint and coordinated planning and programming process with M&E indicators, effective coordination and designing of effective financing modalities for multi-stakeholder and multisectoral activities is planned and this will facilitate overall coordination among the humanitarian and development agencies at the field level. All these efforts are to be aligned with the national and provincial-levels coordination around the national and provincial

Fragile-to-fragile (f2f) / South-South cooperation or peer learning mechanism will be one of strategic backbone for each activity which is well aligned with the recent international engagement adopted on this modality during the second High-level United Nations Conference on South-South Cooperation in Buenos Aires in 2019 (Buenos Aires Outcome document, March 2019). This will be conducted in collaboration with UNDP SDG implementation facility in fragile and conflict-affected settings, g7+ which has a f2f match making matrix regarding the needs and strong capacities of specific areas of each g7+ member (g7+ Nairobi, 2016) as well as UNOSSC (UN office for South-South-Cooperation) to capitalise the existing network of Global South and establishing knowledge platform. For instance, as part of Compact implementation, development coordination system and aid/development management system in Burundi, Somalia and other g7+ member countries where governments have established the coordination mechanism and that is currently working properly.

The IDPS’s Peace Vision 2019-2021 has been launched on 15 July 2019 during the HPLF in New York and the three thematic priorities suggested and endorsed by the constituencies of g7+, INCAF-DAC members including the Republic of Korea and CSPPS will be integrated into the New Deal implementation in DRC to ensure; i) Enhancing national cohesion; ii) Advancing gender equality and the WPS Agenda and, iii) Supporting a peace-promoting private sector.
